OUR MISSION

Steamboat Dance Theatre's (SDT) mission is to engage, enrich, and educate the communities of the Yampa Valley through dance and movement .

OUR VISION

We strive to foster a vibrant culture of dance in the Yampa Valley community by inspiring passion for and appreciation of diverse dance and movement experiences.

SDT AND LOCAL DANCE

The role SDT plays in the local community is to create a dance network by serving as a liaison between dancers and dance opportunities. We do this by connecting people who are interested in learning, performing or observing dance, with studios, financial assistance for classes, choreographers, professional dance instructors and performances. In our small, remote community accessing dance, especially professional dance, can be very challenging. SDT helps to keep dance culture and the arts alive by filling this gap.

OUR ROLE

SDT is a community organization that offers multiple programs intended to bring dance and dance culture to local dancers and non-dancers alike. We do this by hosting an annual community dance performance, offering scholarships for dance classes, organizing master classes, organizing low-cost community dance classes, and exhibiting free dance films.
